Fellowship Program

Description of activities

Learning basic and advanced Cardiac CT and Cardiac MR at PACS in ASAN Hospital.

Learning objects

Cardiac imaging

Supervision and interaction

Discussion and menthoring every afternoon. Learning image acquisition technique from radiographer.

Life experience and expense

I really enjoy staying at seoul. Local fellow and teaching most welcome and friendly.

Housing costed approximately 2.000.000 won/ month. Meals and transportation costed approximately 1.000.000 won/ month.

Comment on ASCI Fellowship Program

I am really happy and get many experience and acknowledge about cardiac imaging.

I'm m happy join ASCI program, I can get many experience to learn many things from ASAN hospitals. I hope I could repeat the fellowship in other country.
