# **ASCI Joint Symposium with HOLISTIC APPROACHES IN CARDIOVASCULAR DISEASE 2021**

---

**August 21, 2021**

**Online**

**Hosted by the Indonesian Cardiocerebrovascular Society (ICS)**

## Program Information

- **Date:** August 21, 2021 | **Venue:** Online, Indonesia
- **Program:** Third Wave : Arrhythmia  
    **“Wholeheartedly Treating Arrhythmia: Synchronizing the Heart, Maintaining the Rhythm”**
- **Session:** Imaging in Atrial Fibrillation

Time (Local)	Title	Speaker
		Moderator: Dr. Sally Aman Nasution
11:00 - 11:30	Echocardiography selection for LAA occluder candidate	Dr. M. Syahrir Azizi
11:30 - 12:00	Pre procedural CT scan for assessment LAA procedure	Dr. Swee Yaw Tan
12:00 - 12:30	Q&A	

## Greetings from the Chair of ASCI School and Director of ASCI Joint Symposium

Prof. Jongmin Lee  
Chair ASCI School

On behalf of the Asian Society of Cardiovascular Imaging (ASCI), it is a great pleasure for us to hold ASCI Joint symposium with HOLISTIC APPROACHES IN CARDIOVASCULAR DISEASE 2021, Third Wave, online.

After the foundation in 2006, the ASCI has grown by leaps and bounds based on the devotion of many excellent leaders and members. For concentrating ASCI's academic resources and for more efficient conduction of ASCI's academic activities, an ASCI's sub-organization, the ASCI School is founded in 2018. One of the ASCI School projects is 'Joint Symposium', which is to enrich chances of international lecture for ASCI speakers and promote the appropriate use of cardiac imaging in Asian countries.

We hope this symposium will be a great opportunity to update the latest knowledge for all participants. We especially thank the ICS for their warm hosting of this symposium and their generous and considerate hospitality. We wish both societies much progress in the future.

Prof. Kakuya Kitagawa  
Director ASCI Joint Symposium

## Greetings from the ICS President

Dr. Ika Prasetya  
Widjaya

On the behalf of Indonesian Cardiocerebrovascular Society (ICS), we are honored to host the ASCI Joint Symposium with Holistic Approaches In Cardiovascular Disease 2021.

Cardiocerebrovascular diseases remain to be one of the leading causes of death in many parts of the world, including in Indonesia. Since its establishment in 1999, ICS has continued to facilitate many health care providers in developing their knowledge and skills regarding the management of cardiocerebrovascular problems. Every year, numerous medical breakthroughs are changing the way we treat the diseases. Therefore, we need to constantly renew and enhance our expertise.

Hopefully, this symposium will help all the participants in gaining the most recent updates on cardiocerebrovascular imaging. We sincerely thank ASCI for their cooperation in this symposium and may both societies continue to thrive in the future.

## Profile of ASCI Speaker

---

### **Dr. Tan Swee Yaw**

Adjunct Associate Professor

National Heart Centre, Singapore
