Greetings from the Chair of ASCI School and Director of ASCI Joint Symposium

Prof. Jongmin Lee
Chair ASCI School

On behalf of the Asian Society of Cardiovascular Imaging (ASCI), it is a great pleasure for us to hold ASCI Joint symposium with Indian Association of Cardiac Imaging (IACI), online.

After the foundation in 2006, the ASCI has grown by leaps and bounds based on the devotion of many excellent leaders and members. For concentrating ASCI's academic resources and for more efficient conduction of ASCI's academic activities, an ASCI's sub-organization, the ASCI School is founded in 2018. One of the ASCI School projects is 'Joint Symposium', which is to enrich chances of international lecture for ASCI speakers and promote the appropriate use of cardiac imaging in Asian countries.

We hope this symposium will be a great opportunity to update the latest knowledge for all participants. We especially thank the IACI for their warm hosting of this symposium and their generous and considerate hospitality. We wish both societies much progress in the future.

Prof. Kakuya Kitagawa
Director ASCI Joint Symposium

Greetings from the IACI President

Dr. Hemant Telkar
President

On the behalf of, INDIAN ASSOCIATION OF CARDIAC IMAGING (IACI).

It is an honour to hold the joint ASCI-IACI symposium, during the 11th Annual Virtual Conference.

IACI today, a thousand plus members have seen a tremendous increase in the number of cardiac imaging specialists and teachers in the last decade.

IACI provides a platform for academic purposes from all interested resident doctors and consultants with the availability of IACI teachers and mentors to guide the members into better Cardiac Imaging.

The purpose of this joint symposium is to exchange knowledge information across the country's borders and increase interaction between the various Asian countries and the Indian subcontinent.

I hope this symposium helps to strengthen the relationship between the IACI-ASCI moving forward.
