Greetings from Chair of ASCI School and Director of ASCI Joint Symposium

Prof. Jongmin Lee
Chair ASCI School

On behalf of the Asian Society of Cardiovascular Imaging (ASCI), it is a great pleasure for us to hold the ASCI Joint symposium with Shanghai Cardiovascular Imaging Forum.

After foundation in 2006, the ASCI has been grown up consistently and successfully based on devotion of many excellent leaders and members. For concentrating ASCI's academic resources and for more efficient conduction of ASCI's academic activities, an ASCI's sub-organization, the ASCI School is founded in 2018. One of the ASCI School projects is 'Joint symposium', which is to enrich chances of international lecture for ASCI speakers, and promote appropriate use of cardiac imaging in Asian countries.

We hope this symposium will be a great opportunity to update the latest knowledge for all participants. We especially thank the Shanghai General Hospital for their warm hosting of this symposium. We wish both organizations much progress in the future.

Prof. Kakuya Kitagawa
Director ASCI Joint Symposium

Greetings from Director of Department of Radiology, Shanghai General Hospital

Dr. Jiayin Zhang
Director of Department
of Radiology,
Shanghai General
Hospital

On behalf of Department of Radiology, Shanghai General Hospital, it's a great honor for us to host this ASCI Joint Symposium in Shanghai. ASCI is the well-known organization dedicated for the research and education in the field of cardiovascular imaging. Hosting this event in Shanghai will provide a great opportunity to local radiologists and cardiologists who are interested in the clinical practice and scientific research of cardiovascular imaging.

We hope this event will academically benefit the participants and also enhance the international communication between Asian countries. Finally, we wish a great success to this joint symposium.
