Greetings from the Chair of ASCI School and Director of ASCI Joint Symposium

Prof. Jongmin Lee
Chair ASCI School

On behalf of the Asian Society of Cardiovascular Imaging (ASCI), it is a great pleasure for us to hold ASCI-IACI Joint symposium.

After the foundation in 2006, the ASCI has grown by leaps and bounds based on the devotion of many excellent leaders and members. For concentrating ASCI's academic resources and for more efficient conduction of ASCI's academic activities, an ASCI's sub-organization, the ASCI School is founded in 2018. One of the ASCI School projects is 'Joint Symposium', which is to enrich chances of international lecture for ASCI speakers and promote the appropriate use of cardiac imaging in Asian countries.

We hope this symposium will be a great opportunity to update the latest knowledge for all participants. We especially thank the IACI for their warm hosting of this symposium and their generous and considerate hospitality. We wish both societies much progress in the future.

Prof. Kakuya Kitagawa
Director ASCI Joint Symposium

Greetings from the IACI President

Dr. Hemant Telkar

This is the 3rd ASCI joint symposium with IACI on current and advanced topics on Cardiac Imaging and its clinical relevance.

I am glad that the association between ASCI and IACI has been growing strong thanks to an effort by the ASCI school to promote Cardiac Imaging in India.

Looking forward to a rich academic session with special thanks to Dr. Kakuya Kitagawa, Prof. Jongmin Lee and Dr. Tan Swee Yaw.
