

ASCI Joint Symposium with Iranian non-invasive cardiovascular Imaging Symposium

May 2, 2019

**Tehran Heart Center
Tehran, Iran**

Hosted by Hosted by local organizer

Program

Date: May 2(Thu.), 2019 | Tehran Heart Center, Tehran, Iran

Time	Title	Speaker
8:30-9:00	CT angiography aspects in coronary stents	Negar Omidi
10:30-11:00	CMR appearances of uncommon cardiomyopathies- a case based approach	Vimal Raj
11:00-11:30	CT angiography in chronic CTO	Johann Christopher
11:30-12:00	CMR aspects in DCM	Mohammad Kasaei

Greetings from Chair of ASCI School and Director of ASCI Joint Symposium

Prof. Jongmin Lee
Chair
ASCI School

On behalf of the Asian Society of Cardiovascular Imaging (ASCI), it is a great pleasure for us to hold ASCI Joint symposium in Iran.

After foundation in 2006, the ASCI has been grown up consistently and successfully based on devotion of many excellent leaders and members. For concentrating ASCI's academic resources and for more efficient conduction of ASCI's academic activities, an ASCI's sub-organization, the ASCI School is founded in 2018. One of the ASCI School projects is 'Joint symposium', which is to promote appropriate use of cardiac imaging in Asian countries.

We hope this symposium will be a great opportunity to update the latest knowledge for all participants. We especially thank the *Iranian non-invasive cardiovascular Imaging Symposium* for their warm hosting of this satellite symposium with a provision of online video conference system.

We wish both organizations much progress in the future.

Associate Prof. Kakuya
Kitagawa
Director
ASCI Joint Symposium

Greetings from Congress President

Dr. Negar Omidi
Assistant
Professor of
TUMS

Dear Colleagues and Friends,

On behalf of the Iranian non-invasive cardiovascular imaging symposium in conjunction with Asian Society of Cardiovascular imaging (ASCI), which will be held on 02 may 2019, we are honored to invite and welcome you to Tehran, Iran

This symposium seeks to provide an overview of the usage of CT angiography and Cardiac MRI in coronary artery disease, heart failure and congenital heart disease.

The non-invasive cardiovascular imaging symposium offers a good opportunity for extensive discussion of the topical issues in CT angiography and Cardiac MRI and share best practice by didactic lectures. In this meeting, we are honored to have a workshop for coronary CT angiography interpretation .

It is our great honour and privilege that Asian Society of Cardiovascular Imaging (ASCI) will collaborate with THC. Thank the ASCI, for join us in this great event to help promote cardiovascular imaging knowledge in Iran. We look forward to meeting and greeting each of you at the symposium and working together toward the continuing advancement of our field .

**Dr. Zahra
Alizadeh sani**
Associate
Professor
