Greetings from Chair of ASCI School and Director of ASCI Joint Symposium

Prof. Jongmin Lee
Chair ASCI School

On behalf of the Asian Society of Cardiovascular Imaging (ASCI), it is a great pleasure for us to hold ASCI-MRS Joint symposium.

After foundation in 2006, the ASCI has been grown up consistently and successfully based on devotion of many excellent leaders and members. For concentrating ASCI's academic resources and for more efficient conduction of ASCI's academic activities, an ASCI's sub-organization, the ASCI School is founded in 2018. One of the ASCI School projects is 'Joint symposium', which is to enrich chances of international lecture for ASCI speakers, and promote appropriate use of cardiac imaging in Asian countries.

We hope this symposium will be a great opportunity to update the latest knowledge for all participants. We especially thank the MRS for their warm hosting of this symposium and their generous and considerate hospitality. We wish both societies much progress in the future.

Associate Prof.
Kakuya Kitagawa
Director ASCI Joint
Symposium

Greetings from MRS President

On behalf of Myanmar Radiology Society, I am truly honored to host this great event, MRS-ASCI joint symposium. I would like to thank all the invited speakers of ASCI for coming to our country to make this symposium happen. This meeting has been designed to provide updated knowledge regarding cardiovascular imaging. This scientific program will cover broad spectrum of cardiovascular imaging topics. In addition, this symposium is intended to promote collaboration among diverse professionals for improving the practice of CVS imaging. It will indeed be productive new experience for all the participants. We also wish further collaboration of these two societies in the future.
