### Greetings from the Chair of ASCI School and Director of ASCI Joint Symposium

Prof. Jongmin Lee  
Chair ASCI School

On behalf of the Asian Society of Cardiovascular Imaging (ASCI), it is a great pleasure for us to hold ASCI Joint symposium with Indian Association of Cardiac Imaging (IACI).

After the foundation in 2006, the ASCI has grown by leaps and bounds based on the devotion of many excellent leaders and members. For concentrating ASCI's academic resources and for more efficient conduction of ASCI's academic activities, an ASCI's sub-organization, the ASCI School is founded in 2018.

One of the ASCI School projects is 'Joint Symposium', which is to enrich chances of international lecture for ASCI speakers and promote the appropriate use of cardiac imaging in Asian countries.

We hope this symposium will be a great opportunity to update the latest knowledge for all participants. We especially thank the IACI for their warm hosting of this symposium. We wish both societies much progress in the future.

Prof. Kakuya Kitagawa  
Director ASCI Joint Symposium

### Greetings from the IACI President

Dr. Hemant Telkar  
President of IACI

My personal thanks as President of IACI for accepting the invitation for participating in Hybrid Annual 2022 Conference and 5th ASCI joint symposium with IACI.

The IACI was founded in 2010 and now has a membership of over 1000. We have a simple mission:

- Educate ourselves and others in cardiac imaging: focus on MRI and CT
- Cultivate best practices in our institutions and help others do the same
- Foster forums and discussion panels to allow cardiac imagers across India and the globe to link together, clear doubts, clarify protocols, challenge friends and simply make cardiac imaging fun.

I am glad that the association between ASCI and IACI has been growing strong thanks to an effort by the ASCI school to promote Cardiac Imaging in India.
